Thermal receipt printer
with front paper feed and loading

Convenient and ultra compact, this thermal point of sale receipt printer can be easily integrated into cash desk areas.

It is one of the few in its category to be so practical and space saving and is ideal for installing sub-counter, thanks to its front paper feed and loading.

The ODP 500 fits perfectly in any type of shop, store, point of service, restaurant, bar, whatever the retail or EPOS sector.

The **ODP 500** is a fast 200mm/sec; it has ESC/POS compatible drivers, automatic paper feed/loading and auto-cutter. It is delivered with all cables and

configuration utilities are also available.

All AURES peripherals are compatible with other EPOS systems available on the market.
