Sage50 Retail:

- Fully integrated Point-of-Sale, stock and accounts management solution based on Sage50 Accounts
- Easy-to-use touch-screen Point of Sale system runs on standard PCs and touch-screen terminals
- POS Desktop can be customized to suit the sales environment
- PLU keys can be set up for non-barcoded items and services
- Handles cash sales, cash account sales and trade account sales
- POS Tills continue operating if server or network goes down
- Automatic Electronic auditing of all POS transactions deters fraud
- Handles refunds, exchanges and credit notes
- Incomplete transactions can be parked (put on Layaway) and re-called

- Transactions update the back-office Sage50 system as soon as they are saved on the Till PCs
- SagePOS Till PCs can be taken on the road and used at trade fairs, exhibitions, kiosks etc. - sales transactions saved on the Till get uploaded to Sage50 when the Till PC is re-connected to the company network
- Dynamic Credit Control system checks trade customer's credit limit before and during sale entry
- Security system restricts what till operators are allowed to do
- Manager sign-on to authorize a discount, special price or a credit blocked transaction
- Receipt and A4 invoice, credit note and advice note printing
- Integrated COMMIDEA Chip and Pin EFT (optional)
- Allows multiple barcodes for a single item
- In-store Gift Card and Gift Voucher credit management: sale of credit, top-up of credit and usage of credit
- Customer Card swipe recognition links to integrated loyalty system
- Deposit sale management from till and back-office
- Lookup customers and products by full/part search filters
- Product Image Display
- Handles promotions and Multi-buys e.g. "Buy 5 Get 1 Free", "4 for the price of 3", "Free bottle of wine if sale over €50" etc.
- Price and percentage discounting
- Date restricted promotional pricing and Z-pricing overrides
- Integration with Avery scales for weighted items
- Dynamic display of VAT inclusive and VAT exclusive transaction totals
- Customer display output
- Auto warning to cashier when POS detects a below cost selling price
- Option to apply a markup on split-case items
- Facility to enter payment on account from trade debtors
- End-of-day reporting of sales, tender breakdown, time analysis, cashier performance, voids etc.

EuroSoft is a business partner of **Actinic** - a leading provider of e-Commerce solutions for SME retailers. There are thousands of Irish and UK retailers using Actinic to sell their products online. Actinic On-line is the only e-Commerce solution that offers: Sage50 integration, online shop, exports to price comparison sites, marketplace management, Social Commerce and Mobile Device Commerce. You get the benefit of over 300 features to optimise your online shop so as to ensure ecommerce success. Actinic is a hosted application paid for by monthly subscription which means that you don't have to worry about paying a large sum of money up-front to acquire an e-commerce website.

Sage 50 Integration:

Actinic offer a closed-loop "data-plug" integration with Sage 50 accounts as an integral feature of their software. The Sage 50 data-plug facilitates the uploading of Sage50 product, customer and price data to an Actinic website and the importing of Actinic web orders into Sage 50.

Ecommerce Software to Help You Succeed Online

- ✓ Over 300 features: ecommerce, marketing, design tools and templates, SEO, product management and merchandising, order processing, eBay and Amazon integration, Facebook publishing, mobile optimised store and much more
- ✓ Constant feature updates with no service interruption.
- ✓ All features included in all pricing plans

Facebook, eBay and Amazon integration is an integral feature of Actinic On-line, as is SEO for Google, Yahoo etc. Actinic On-line lets you publish your products to all these dynamic web marketplaces thereby raising your website profile and increasing sales:

Actinic Mobile:

The mobile market is currently the fastest growing ecommerce sector and all the indicators suggest that m-commerce is surging as more and more consumers use mobile devices such as iPhones to make purchases on-line. In the UK, year-on-year sales via mobile devices were up 254% in March 2012. With the Actinic mobile commerce solution: Mobile Store, which is an integral feature of Actinic On-line, customers can browse and purchase products from a mobile optimized version of your online store.

The **Mobile Assistant** feature of Actinic lets you manage your web store and track your orders from your iPhone, iPad or Smart Phone wherever you happen to be.
